SUBJECT INDEX, VOLUME 47

Adrenal
antidiuretic substance in blood, 1
and stress, 13
effect of diet on, 30
and phosphorus metabolism, 48
hyperadrenocortinism, 60
effect of male hormone on, 97
and estrus responses, 129
and nitrogen loss after burns, 148
and nitrogen loss in cold stress, 156
and gastric secretion, 193
and sex hormones, 228
effect on skin, 234
and water balance, 281
and salt metabolism, 308
and serum sodium, 326
hormone levels in blood, 338
nervous influence on, 347
glucose and response of, 351
effect of pituitary upon, 384
and arthritis, 386
effects of steroids on, 414
effect on adrenal homogenates, 418
and plasma fibrinogen, 457
responses after propylthiouracil, 461
Alloxan
and potassium appetite, 130
and protein appetite, 134
diabetes and sulfur compounds, 251
administration in guinea pig, 393
Ascorbic acid
effect of adrenal *in vitro*, 384
effect on arthritis, 386
Assay
of 17-ketosteroids, 139
of estrogens by fluorometry, 166
of estrogens by fluorometry, 182
Arthritis
effect of adrenal on, 386

Blood
antidiuretic substance in, 1
effect of desoxycorticosterone on, 102
adrenal and serum sodium, 326
adrenal hormone levels in, 338
pituitary and hemopoiesis, 364
eosinopenia induced by insulin, 387
pituitary and red cell volume, 429
plasma fibrinogen and adrenals, 457

Carbohydrate
effect of growth hormone on, 26
effect of growth hormone on, 114
effect of tartronic acid on, 302
and insulin, 436
utilization by testis, 459
Comb
relationship to pituitary, 300
Connective tissue
effect of adrenal hormones on, 234
Cytology
of pituitary gland, 289

Diet
and adrenal-thymus relationship, 30
and metabolism of testosterone, 89
and estrone inactivation by liver, 265

Enzymes
and steroid hormones, 228
and steroids in muscle, 260
in stimulated crop-gland, 274
in rat uterus, 331
Estrus
responses and adrenal abnormalities, 129

Fat
metabolism and pituitary, 108
effect of tartronic acid on, 302
turnover of, 443
Fluorometry
of estrogens, 166
spectra of estrogens, 182

Insulin
and eosinopenia, 387
injected at brief intervals, 436
Iodine
pituitary and metabolism of, 36
absorption of iodinated casein, 242

Kidney
effect of androgens on, 19
and progesterone excretion, 83
effect of desoxycorticosterone, 102

and excretion of radiocalcium, 219

Liver
and adrenal-thymus relationship, 30
and metabolism of testosterone, 89
and phosphorus metabolism, 102
inactivation of estrone by, 265

Muscle
succinic dehydrogenase and sex hormones, 260

Nervous system
and adrenal response, 347
hypothalamic obesity, 443

Ovary
periodicity of, 198
androgens from, 370
lithosperm effect on, 399

Pancreas
sulfur compounds and alloxan diabetes, 251
alloxan effect on, 393
Parathyroid
and excretion of radiocalcium, 219
Pituitary
glycostatic activity of growth hormone, 26
and iodine metabolism, 36
and phosphorus metabolism, 48
and sex-hormone antagonism, 73
and lipid metabolism, 108
growth hormone and carbohydrate metabolism, 114
serology of growth hormone, 143
and phosphorus incorporation in liver, 162
release of L.H. by, 198
and crop-gland stimulation, 274
cytology of, 289
and comb, 300
glucose and adrenal response, 351
and hemopoiesis, 364
effect on adrenal, 384
inhibition by lithosperm, 399
and adrenal, 414
and red cell volume, 429
and thyroid, 454

Radioisotopes
in lipids, 108
phosphorus incorporation in liver, 162
parathyroid and excretion of radiocalcium, 219
radioiodine absorption, 242
metabolism of radioprogesterone, 311
Relaxin
and estrogen, 75

Seminal vesicle
effect of ovary on, 370
Serology
of growth hormone, 143
Skin
effect of adrenal hormones on, 234
Steroids
androgens and kidney, 19
and hyperadrenocortinism, 60
antagonism of, 73
and relaxin, 75
excretion in kidney, 83
and metabolism in liver, 89
androgen effect on adrenal, 97
and adrenal, 228
and skin, 234
and muscle enzymes, 260
inactivated in liver, 265
and water balance, 274
biological activity of, 305
and salt metabolism, 308
metabolism of radioprogesterone, 311
absorption after delution with cholesterol, 320
androgens from ovary, 370
effects on adrenals, 414
effect on adrenal homogenates, 418
long-acting testosterone, 448
Stomach
and adrenal, 193
Stress
and demedullated adrenal, 13
and nitrogen loss, 148
and nitrogen loss, 156
nervous effect on adrenal in, 347
plasma fibrinogen and adrenals, 457

Testis
glucose utilization of, 459
Thyroid
iodine metabolism of, 36
and nitrogen loss after burns, 148
and nitrogen loss in cold stress, 156
and pituitary, 454
and adrenal responses, 461

Uterus
B-glucuronidase activity of, 331
